

'I AM CHURCH' EVENT 2024

On Tuesday, members of the Chaplaincy Team represented CTK at the 'I am Church' event which was held at Sacred Heart Catholic Church.

This was an opportunity for children across the city to listen to inspirational speakers as well as share their own journey of faith.

The group presented on the Catholic Social Teaching principle 'Dignity of the Human Person', they taught us that each person is special and we are all made in the image and likeness of God.

What made the event even more special is how proudly the CTK Chaplaincy team spoke about being active members of the school and parish community. They also spoke eloquently about why their faith is important to them, how they live each day following in God's footsteps but what they also hope for the future.

YEAR 3 AND 6 MASS BOOKLETS

On Tuesday, children in year 3 and 6 were given a Mass Diary from Father Tom as part of their preparation for the sacraments. The children are expected to complete the weekly task linked to the gospel and ask a Priest or Deacon to sign the page of their weekly task after Mass on a Saturday evening or Sunday.

Children are expected to bring their mass booklets into school each Monday for staff to monitor.

What Parents & Educators Need to Know about HORROR FILMS & AGE RATINGS

The 'on-demand' availability of streaming platforms in many homes creates extra possibilities for young viewers to be exposed to age-inappropriate content. Material which features horror or violence can cause anxiety and nightmares for children, especially since it can be hard for young ones to grasp that what they're watching isn't real.

CLASSIFICATION BREAKDOWN

The British Board of Film Classification has the following age ratings:

- U:** Suitable for all ages
- PG:** For children aged 8 and above; this content shouldn't unsettle them
- 12A:** Children under the age of 12 should not watch without an adult; this content potentially features bad language, nudity or sexual references
- 15:** Suitable only for 15-year-olds and above
- 18:** Exclusively for an adult audience, with potentially explicit themes of violence, nudity or sex

WHAT ARE THE RISKS?

STREAMING IS EVERYWHERE

Modern mobile devices make it very easy for children to watch streamed films without the need for a TV. The availability of inappropriate content has risen significantly on streaming platforms, almost all of which host 18-rated content. If not restricted by parental controls, this could be viewed by children who aren't quite ready for such adult themes, concepts and imagery.

FACT VS. FICTION

Many children have no trouble separating fact from fiction. However, with modern day technology making pretend violence and horror look ever more realistic, it's becoming harder for youngsters to tell the difference. For instance, consider remakes of older films, where dated special effects (making it easy to discern that something wasn't real) have been replaced by far more convincing monsters and gore.

PEER PRESSURE

Friends encouraging each other to watch the latest film featuring violence or horror can lead to children consuming content that they're not ready for. As 18+ content is available on many streaming platforms, youngsters can watch these together – potentially without their parents' or carers' knowledge.

CHILDREN SCARE DIFFERENTLY

It can be difficult to decide what content is appropriate for children. What's fine for one child could be extremely frightening for another. As many children admit to not sharing or discussing the content they watch with their parents, encouraging an open dialogue around the kind of media that young people consume can help avoid exposing them to any inappropriate content.

PSYCHOLOGICAL IMPACTS

Horror prides itself on its ability to startle or induce genuine fear in the viewer – so it's no surprise that this genre isn't usually intended for children. A natural side-effect of this is that 'jump scares' or a creepy, suspenseful atmosphere can have lasting effects on younger minds. The resulting anxiety can impact a child's sleeping patterns or eating habits.

Advice for Parents & Educators

WATCH THE FILM FIRST

If you're concerned that a film might be unsuitable for children (whether it's their first dive into the horror genre or a step up in age classification), then take a look for yourself. There's no better way to judge whether this content is something you'd deem appropriate for a child – and if a parent, for example, has actually seen the film (or at least a portion of it), they can construct a far more credible case if they decide it's inappropriate.

REMEMBER – IT'S NOT REAL

Emphasise to children that the content they're viewing is entirely fictional and has no chance of affecting them in real life. If a child is upset after watching a film, try to understand what exactly has unsettled them; this can help you approach the topic in a healthy and informative manner, to dispel any fears or anxieties they may have.

DISCUSS THE CONTENT OF FILMS

If a child has seen a film that you think may have exposed them to potentially uncomfortable themes and ideas, don't shy away from talking about it, and answer any questions they may have. This is especially important if they watched the film without an adult present. Ask them to summarise the story for you, as this will give you an understanding of what they've learned from watching it.

USE PARENTAL CONTROLS

Most streaming platforms have the option to put age ranges on children's accounts. This means that films and shows that are inappropriate for children won't be advertised while they're browsing and won't even appear if a child specifically searches for them. This can be changed any time at parents' discretion, but it's wise to protect these settings with a password, so a child can't alter anything on their own.
