WEEKLY SCHOOL NEWSLETTER – Friday 4th July 2025

SCIENCE WEEK

A huge well done and thank you to all our children for their incredible enthusiasm and curiosity throughout Science Week! It's been wonderful to see the excitement across the school as children listened to stories from Kevin Graal, took part in brilliant Sublime Science workshops, and shared their own experiments and discoveries with such pride.

A very special thank you to Mrs Jackson, who worked so hard to organise such a fantastic week of activities and opportunities for everyone to enjoy. It's been a real celebration of creativity, enquiry, and learning – and we're so proud of the way our pupils have embraced it

OUR MISSION THIS WEEK

THE MISSION

SAINTS PETER AND PAUL

YOUR MARK 10 MISSION IS TO BE LIKE SAINTS PETER AND PAUL AND SHOW YOUR LOVE FOR JESUS WITHOUT WORRYING ABOUT WHAT OTHERS THINK. WHEN SOMEONE SAYS "LET US PRAY," CLOSE YOUR EYES STRAIGHT AWAY. DON'T WORRY WHETHER ANYONE ELSE IS OR NOT. IF YOU WANT TO SING LOUDLY, GO FOR IT AND LIFT UP YOUR HANDS IF YOU WANT TO. IF YOU WANT TO PRAY ON YOUR KNEES OR CARRY A ROSARY IN YOUR POCKET JUST DO IT. BE A LEADER. BE THE ONE WHO SHOWS OTHERS THE WAY AND SHOW YOUR LOVE FOR JESUS WITHOUT COUNTING THE COST.

Saints Peter and Paul both showed their love for Jesus no matter the cost. As we celebrate these two great saints, we listen to the Gospel passage where Jesus chooses Saint Peter to lead his Church

Happy Birthday to...

The HOPE Project

Summer Appeal

Following the wonderful success of the HOPE Project during Lent, it has become clear that many families in our community continue to need support. In preparation for the summer holidays, we are hoping to help even more families across the city by collecting donations of essential food and household items.

If you are able to support, we kindly ask that donations be brought into school each **Wednesday** from the list below.

All items will be collected and delivered to **Christ the King Parish**, where volunteers will prepare hampers to distribute to those in need.

Donations can be sent to either school site. As before, we'll be dividing suggested items between year groups to help gather a good selection of products.

Thank you for your kindness, generosity, and ongoing support — it really does make a difference to families in our local community.

WHAT ARE THE RISKS?

Tablets remain a staple of children's digital lives – and Apple's iPad is by far the most popular model. According to Ofcom, over half of younger children regularly use a tablet to play games, watch online content or access apps. With their broad functionality, iPads can be helpful tools, but without supervision, they may expose children to risks ranging from inappropriate content to screen overuse.

COSTLY TO REPAIR
Unlike some child-friendly tablets, the iPad is not built for rough handling. Its slim design and high cost mean that a drop or spill can result in a costly repair. If a child is using the device regularly, a sturdy case and screen protector are strongly recommended to help prevent accidental damage.

DATA PRIVACY
While Apple is known for strong privacy protections, a recent study found that many iOS apps aimed at children still share personal data. Over 40% of the tested apps sent at least one piece of user information to third parties, raising concerns about advertising and analytics being targeted at underage users.

INAPPROPRIATE CONTENT
The App Store and Safari browser provide almost unrestricted access to online material. Children may stumble upon age-inappropriate content, whether through apps, advertisements or online searches. Even recommended content algorithms can surface unsuitable material.

BYPASSING RESTRICTIONS
Siri – Apple's voice assistant – can potentially override restrictions, especially with the newer text-based commands introduced through Apple Intelligence. Without safeguards in place, children may inadvertently access inappropriate topics simply by asking a question, bypassing certain filters previously set by adults.

SCREEN ADDICTION
iPads can be highly immersive, and excessive screen time may affect a child's emotional and behavioural development. Signs of overuse might include mood swings, irritability, and difficulty focusing on non-digital activities.

REDUCED ATTENTION & COGNITIVE IMPACT
Prolonged use of tablets has been linked with reduced memory, slower processing speeds and difficulties in concentrating. Research shows that children who spend excessive time gaming or consuming media on tablets may struggle with language development and executive functioning over time.

Advice for Parents & Educators

ENABLE FAMILY SHARING
Family Sharing allows you to create a dedicated Apple ID for your child and manage their activity. You can approve purchases, control what content they can access, and set time limits – all done remotely from your own device. It's a simple but powerful way to maintain oversight.

FILTER APPS, WEBSITES & IN-APP PURCHASES
Parental controls in iOS let you block explicit content in Safari, restrict app downloads, and manage in-app purchase permissions. You can also filter websites automatically to prevent access to adult material and disable the installation of certain app types completely.

USE SCREEN TIME FEATURES EFFECTIVELY
Tools like Downtime and App Limits can reduce device overuse. Downtime allows you to block access during key times – such as before bed or during homework – while App Limits sets daily time caps on specific games or apps. Alerts help children anticipate when their time is almost up.

PREVENT UNAPPROVED SPENDING
Children can accidentally (or intentionally) make purchases within apps. Activating Ask to Buy under Family Sharing ensures you receive a notification to approve any app or in-app purchase. This stops surprise charges and allows you to discuss purchases together before they're made.

#WakeUpWednesday
The National College

iPads are a familiar fixture in many households and classrooms, offering access to educational tools, entertainment, and the internet in one sleek package; however, with great versatility comes notable risk. From accidental spending and data privacy breaches to excessive screen time, there's plenty for parents to consider before handing over the device. While Apple offers built-in safeguards such as 'Screen Time' and 'Family Sharing', these features must be correctly set up and actively managed to be effective.

This #WakeUpWednesday guide walks you through these options and highlights some of the more surprising ways children can get around restrictions – including with Siri – while offering practical advice on how to help keep young users safe and healthy online.
