WEEKLY SCHOOL NEWSLETTER – Friday 13th February 2026

## LENTEN CHARITY DATES

We will soon be entering into the season of Lent. Here at Christ the King, during this special time, the children in KS2 organise and run their own charity stall on a set week.

The children in the four houses: Our Lady of Fatima, Our Lady of Knock, Our Lady of Lourdes and Our Lady of Walsingham take it in turns each week to organise and lead their own stalls at Scots Lane site and raise funds for Lenten Charities.

The other three houses bring their money to spend at the child led stalls.

These are the dates that each house will lead:

Our Lady of Fatima Thursday 26 <sup>th</sup> February	Our Lady of Knock Thursday 12 <sup>th</sup> March
Our Lady of Lourdes Thursday 19 <sup>th</sup> March	Our Lady of Walsingham Thursday 26 <sup>th</sup> March

Children in Nursery, Reception, Yr 1 and Yr 2 on their given day are to bring in cakes or biscuits to sell to the other children. Staff will support with this.

Children in Yr 3 to Yr 6 will run their own stalls e.g. raffle, tombola, guess the name of the teddy, beat the goalie, guess how many sweets are in the jar etc. The children can produce their own ideas of what they would like to do.

Staff will make sure that all the younger children are reminded of which house they are in. The younger children often refer to the colour of their house. If you have any questions, please do not hesitate to get in touch. Thank you for your continued support.

## JOURNEY THROUGH LENT

Loving God,

As we begin this season of Lent, help us to pause, reflect, and grow closer to You.  
Teach us to be kind, to show forgiveness, and to make loving choices each day.  
Guide our hearts as we try to do good, to think of others, and to follow Jesus' example.  
Bless our school family throughout this Lenten journey.  
Amen.

### Stations of the Cross

During the season of Lent, the children will visit church on set dates to lead the readings for the stations of the cross.

The Stations of the Cross is a form of prayer. Each of the 14 Stations retells part of Jesus' Passion (his suffering and death) through images and words. These Stations of the Cross introduce children to Jesus' Passion, breaking it down into stages that they can reflect upon and remember.

All services will be in church at 2:30pm – families are welcome to attend.

### The Book That Represents Me

For World Book Day, we are celebrating **YOU!**

Your challenge is to find a book that represents who you are

Dear Parents and Carers,

We are excited to share that **CTK will be celebrating World Book Day on Monday 9th March**. This year, our theme is: **'The Book That Represents Me'**

We would love for each child to come dressed as a **character from a storybook that represents them** in some way. This could be a character they admire, someone who shares their personality or their hobbies and interests, their culture of family, their dreams or even something they just absolutely love!

To help inspire ideas, here are some fun examples children might relate to:

<b>Willy Wonka</b> ( <i>Charlie and the Chocolate Factory</i> ) – because I absolutely love chocolate!	<b>Matilda</b> (Roald Dahl) – because I love reading and learning new things.	<b>The Cat in the Hat</b> – because I'm full of energy and love making people laugh!	<b>Zog</b> – because I'm always trying my best, even when things are tricky!
<b>David Attenborough</b> (from <i>Little People, Big Dreams</i> ) – because I care about animals and the planet.	<b>The Gruffalo</b> – because I'm brave and like adventures in the woods.	<b>Ada Twist, Scientist</b> – because I'm curious and love finding out how things work.	<b>Paddington Bear</b> – because I'm kind and helpful (and maybe love marmalade!).

#### [Support your child to be ready to share their ideas in school](#)

Think about: Why did you choose this book? What does it say about you? Which part of the book feels most like you?

We encourage children to be creative... costumes can be simple, homemade, or something you already have at home.

We can't wait to celebrate the joy of reading and see the fantastic characters the children choose.

Thank you for your support.

## Safeguarding at CTK

**What Parents & Educators Need to Know about AI TOYS**

This festive season, the newest toys on the shelves do not just blink or make noise; they listen. Many now come with artificial intelligence (AI), allowing them to talk, learn, and even respond to a child's emotions. These toys can be educational and engaging, but they also collect, store, and process information. This guide explains what that means for families and why it matters.

**WHAT ARE THE RISKS?**

- TOYS THAT LISTEN AND LEARN**: When a toy uses AI, it collects data such as voice recordings, interactions, and background sounds. This information is sent to remote servers, where it is analysed to improve responses. Your child's voice becomes training data, which may be stored indefinitely or shared with third parties.
- WEAK SECURITY PROTECTIONS**: Some AI toys have poor password protection or open network connections. Others may have microphones or cameras that stay on, even when the toy appears to be off. This can lead to recordings being made without your knowledge, including conversations unrelated to play.
- ARTIFICIAL VOICES, REAL INFLUENCE**: For very young children, an AI companion may become one of the first voices they interact with regularly. These artificial voices have the authority or authority can shape how a child learns to communicate. If the model is artificial, then part of what is learned is artificial as well.
- PRESSURE TO KEEP ENGAGING**: Some toys reward repeated use or track engagement, encouraging children to interact more. When children compare how their toys perform, it creates pressure to play more often. This increases the amount of data collected and can make learning feel like competition.
- MARKETING THROUGH PLAY**: Toys that learn a child's preferences may feed that data into future advertising. A toy that knows a child's favourite colour or hobby could help a company design more targeted marketing to their child and their family.
- PLAYTIME AS DATA TRAINING**: The information collected from children helps train AI systems. Their voice, emotional responses, and behaviour shape how machines "understand" people. Play becomes part of a much larger system that influences how future technologies behave.

**Advice for Parents & Educators**

- START WITH A CONVERSATION**: Talk to young people. Explain that some toys learn from what they say and do, help them understand that even friendly technology should have boundaries, and to ask questions about it. Curiosity is healthy, blind trust is not.
- SET LIMITS ON USE**: Turn off Wi-Fi or Bluetooth when the toy is not in use. Check for updates regularly, as they can change privacy or safety settings. Treat connected toys like any smart device: they should be monitored, updated, and switched off when not in use.
- MODEL DIGITAL AWARENESS**: Children learn from adults. If they see you checking privacy settings, reading terms, and talking openly about online safety, they are more likely to do the same. Show them how to question technology in a healthy way.
- RESEARCH BEFORE YOU BUY**: Look for toys that work offline or store data locally. Check for a clear data policy as you can test how it behaves. Read privacy policies to understand what data is collected, where it goes, and whether it is shared with others.
- REVIEW PRIVACY SETTINGS**: Find out where the data is stored and who has access to it. Some companies ask for more data with advertisers. If the toy connects through an app, check what it requests access to and limit those permissions whenever possible.
- BALANCE AI WITH REAL PLAY**: AI toys can be fun and creative, but they are not a replacement for real-world interaction. Encourage time away from technology with activities that foster emotional and social development. Use AI toys to support learning, not replace it.

Meet Our Expert  
Clara Hawking is Executive Director of Kompass Education. She advises governments, school trusts, and global organisations on AI governance and safeguarding, helping schools and families understand how technology shapes learning, wellbeing, and the digital future of children.

#WakeUpWednesday The National College

AI-driven toys are becoming increasingly common, offering children personalised interactions that can feel surprisingly lifelike. This guide unpacks how these toys listen, learn, and respond – and what that means for privacy, security, and healthy development. From data collection to the subtle influence of artificial voices, it highlights why adults may need to look more closely at the tech inside modern playthings.

It also explores how features such as constant connectivity, engagement-boosting rewards, and behaviour-shaping responses can affect children's play habits. Alongside outlining the risks, the guide shares calm, practical advice to help parents and educators set boundaries, check permissions, and balance AI toys with offline experiences, ensuring AI remains a support for real-world interactions, not a substitute for them.

## Attendance - Reporting Absences

A polite reminder to all parents and carers: when informing the school of your child's absence, please include specific details of their symptoms if they are unwell. Messages such as "not well" or "feeling poorly" do not give us enough information to record the absence accurately.

Please ensure that all absences are reported before 9:00am by leaving a voicemail or emailing us at:

[ctk\\_parentlink@hccmac.co.uk](mailto:ctk_parentlink@hccmac.co.uk)

Thank you for your cooperation in helping us keep our records clear and accurate.

## Parking at WHR site

We kindly remind parents and carers to use the Church car park safely and responsibly. Please park only in marked parking bays and avoid stopping outside the Community Centre or blocking the flow of traffic at any time. Disabled parking bays should only be used by those displaying a valid Blue Badge.

Thank you
