ECO REPORT

Thank you for bringing in all the bottle tops from home. We no longer need these and instead we are asking you to leave your empty crisp packets from your school lunches in the boxes provided.

Five top tips to be a super ECO Warrior:

1. Recycle, Recycle, Recycle.
2. Walk to school instead of going in the car.
3. Have a timed shower instead of a bath.
4. Turn off your lights.
5. Care for toys so they will last longer, then you won't have to replace them and can give them to someone else when you no longer want them.

Bonus tip: Donate clothes that you have outgrown to a needy person or someone smaller than you.

ECO Report by Clara, Class 9

ECO Report by Oliver, Class 9

Well done to all our ECO Heroes at CTK, who recycled socks and tights to support Clothing Coventry.

Hello everyone! I'm Oliver, as part of the school Eco Council team, I've been conducting research on various environmental topics. Did you know that climate change occurs when the Earth gets warmer due to pollution from cars and factories? It can lead to extreme weather events like hurricanes and heatwaves. And you know what? Trees are like superheroes for the environment! They provide us with clean air to breathe, offer homes for animals, and help prevent soil erosion.

Speaking of taking care of the planet, there's something called renewable energy. It's power that comes from sources like the sun, wind, and water. Renewable energy is much better for the environment because it doesn't pollute and doesn't run out like fossil fuels. Isn't that amazing?

And guess what? Conserving water is also extremely important. This means not wasting it. We can save water by turning off taps when we brush our teeth, taking shorter showers, and using water wisely. Every small action we take can make a big difference!

Have you heard of the 3 R's? It stands for Reduce, Reuse, and Recycle. By reducing waste, reusing items instead of throwing them away, and recycling materials like paper and plastic, we can make a significant impact. Taking care of our planet is crucial!

I'm incredibly excited to share my research with all of you. Let's join forces to protect our planet and make it a better place for everyone. Thank you!

Measles:

Protect yourself and your family

- Measles, mumps and rubella (MMR) vaccination is the safest protection against measles.
- Two doses of MMR offers the best protection against measles and is free.
- If you have not had two doses of MMR, you can ask to get them from your GP surgery.
- Check to see whether your child has had their two doses just after their 1st birthday and again before starting school.
- For people who do not touch any pork products, there is a version of the MMR vaccine which does not use porcine gelatin in its production.
- Know the symptoms and keep people with symptoms away from others.
Visit www.nhs.uk/conditions/measles for more measles information.

SPEAK TO YOUR GP IF:

- Your child or someone in your family has missed their first or second dose of the MMR vaccine.
- You or someone in your family show symptoms of measles.

NHS

Measles is circulating

- Measles is extremely infectious and can be serious
- Unvaccinated young children, pregnant women and people with weak immune systems are at greatest risk of severe health complications if they catch measles.
- Symptoms include:
 - high temperature (fever)
 - cold like symptoms such as runny or blocked nose, sneezing or coughing
 - sore, red, watery eyes
 - a blotchy red brown rash, which usually appears a few days after cold like symptoms (sometimes starts on the face before spreading to the rest of the body). The rash may be harder to see on darker skin tones.
 - small white spots inside cheeks and the back of lips (may appear for a few days)
- If you or your child have symptoms of measles, stay at home and phone your GP or NHS 111 for advice – as you could easily spread the virus to others
- If you need to visit your GP or hospital, call ahead to let them know that it could be measles – they will make special arrangements for your arrival to help keep other patients and staff safe.
